In 2011, Global Securities Inc. was publicly listed to the extent of 25%. The stock ticker symbol is "GLBMD", and it is traded on Borsa Istanbul Main Market. The stock price performance is as follows:

Global Investment Holdings

Global Investment Holdings (GIH) is a diversified conglomerate with investments in a number of businesses; including port infrastructure, energy generation, compressed natural gas distribution, mining, real estate development and brokerage & asset management. GIH focuses on maximizing shareholder value by diversifying investments in its operational areas and through agile investment strategies. Since 1990, the year the Group was established as a brokerage firm, it has transformed into a dynamic investment vehicle by focusing on a variety of nascent business sectors and non-banking financial service providers that offer high growth potential with 'first mover' advantages. GIH functions as an umbrella to manage key issues, such as investment, financing, organization, and management, of its affiliates by participating in their capital and management.

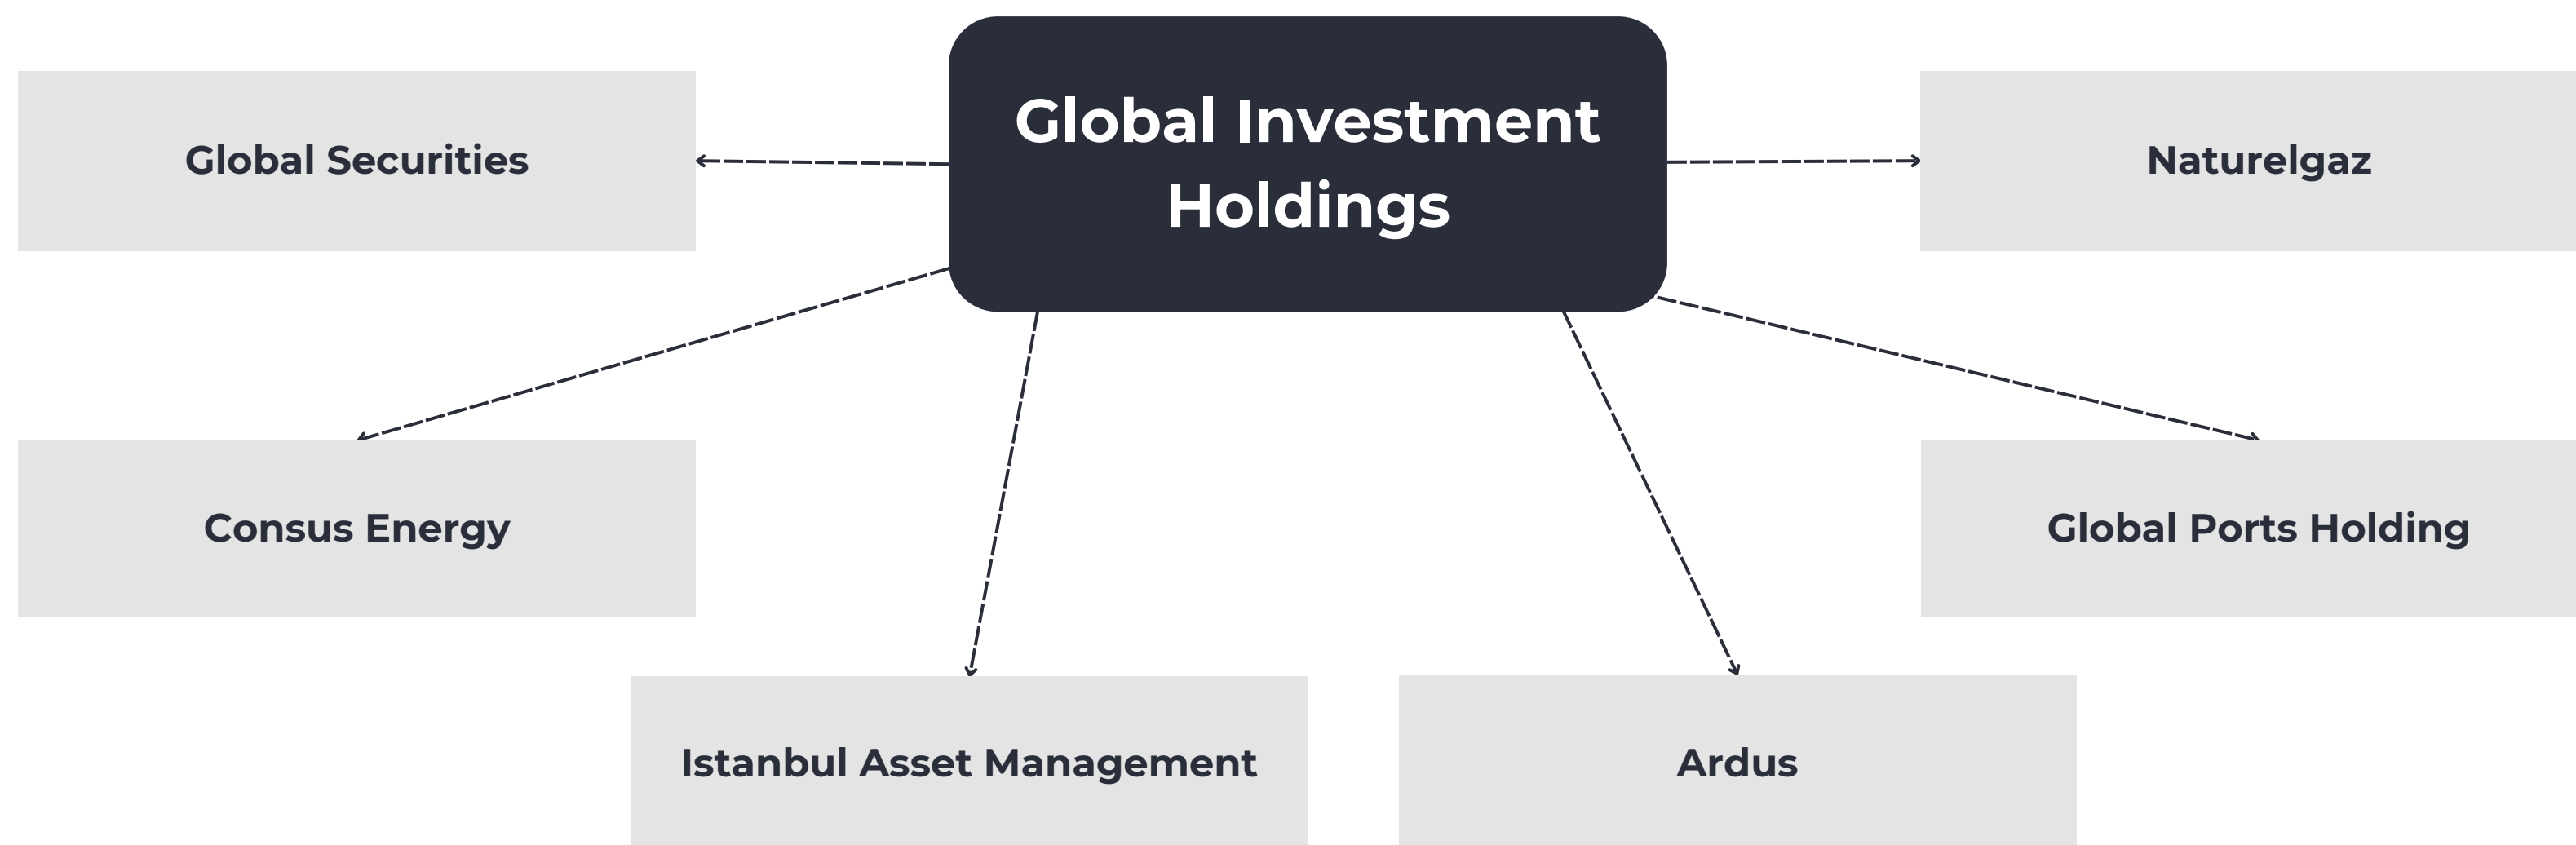

At this time, Global Investment Holdings Group operates in four key business areas:

- **Port Infrastructure:** Operation of cruise ports and commercial sea - ports
- **Energy:** Renewable and clean energy generation, compressed natural gas sales and distribution, energy efficiency and mining
- **Real Estate:** Development and operation of real estate projects
- **Finance:** Non-banking financial services, including brokerage, advisory and asset management

Global Investment Holdings trades on the Borsa Istanbul under the ticker symbol "GLYHO".

Global Investment Holdings

Over the past 14 years, it has transformed from a brokerage firm to a holding company operating in a wide range of business sectors, increasing its total assets by 29 times and its equity by 11 times.

Research

Global Securities recognizes you and shares investment recommendations tailored to your preferences, needs, and risk profile through detailed reports prepared with over 34 years of industry experience and distinctive expertise.

The unit offers a wide range of products, including regularly produced company updates and valuation reports, rating changes, earnings forecasts, earnings analyses, industry-specific and thematic research, macroeconomic analyses, periodic strategy reports, daily bulletins, dynamic financial modeling and model portfolio recommendations. In addition to fundamental projections, technical analysis is utilized and the product range is further enhanced through various statistical studies and models.

Blending Global's over 34 years of industry experience and distinctive know-how, the Research Unit is committed to customer-focused and responsible communication and service based on national and international laws and regulations.

Short-Term Model Portfolio

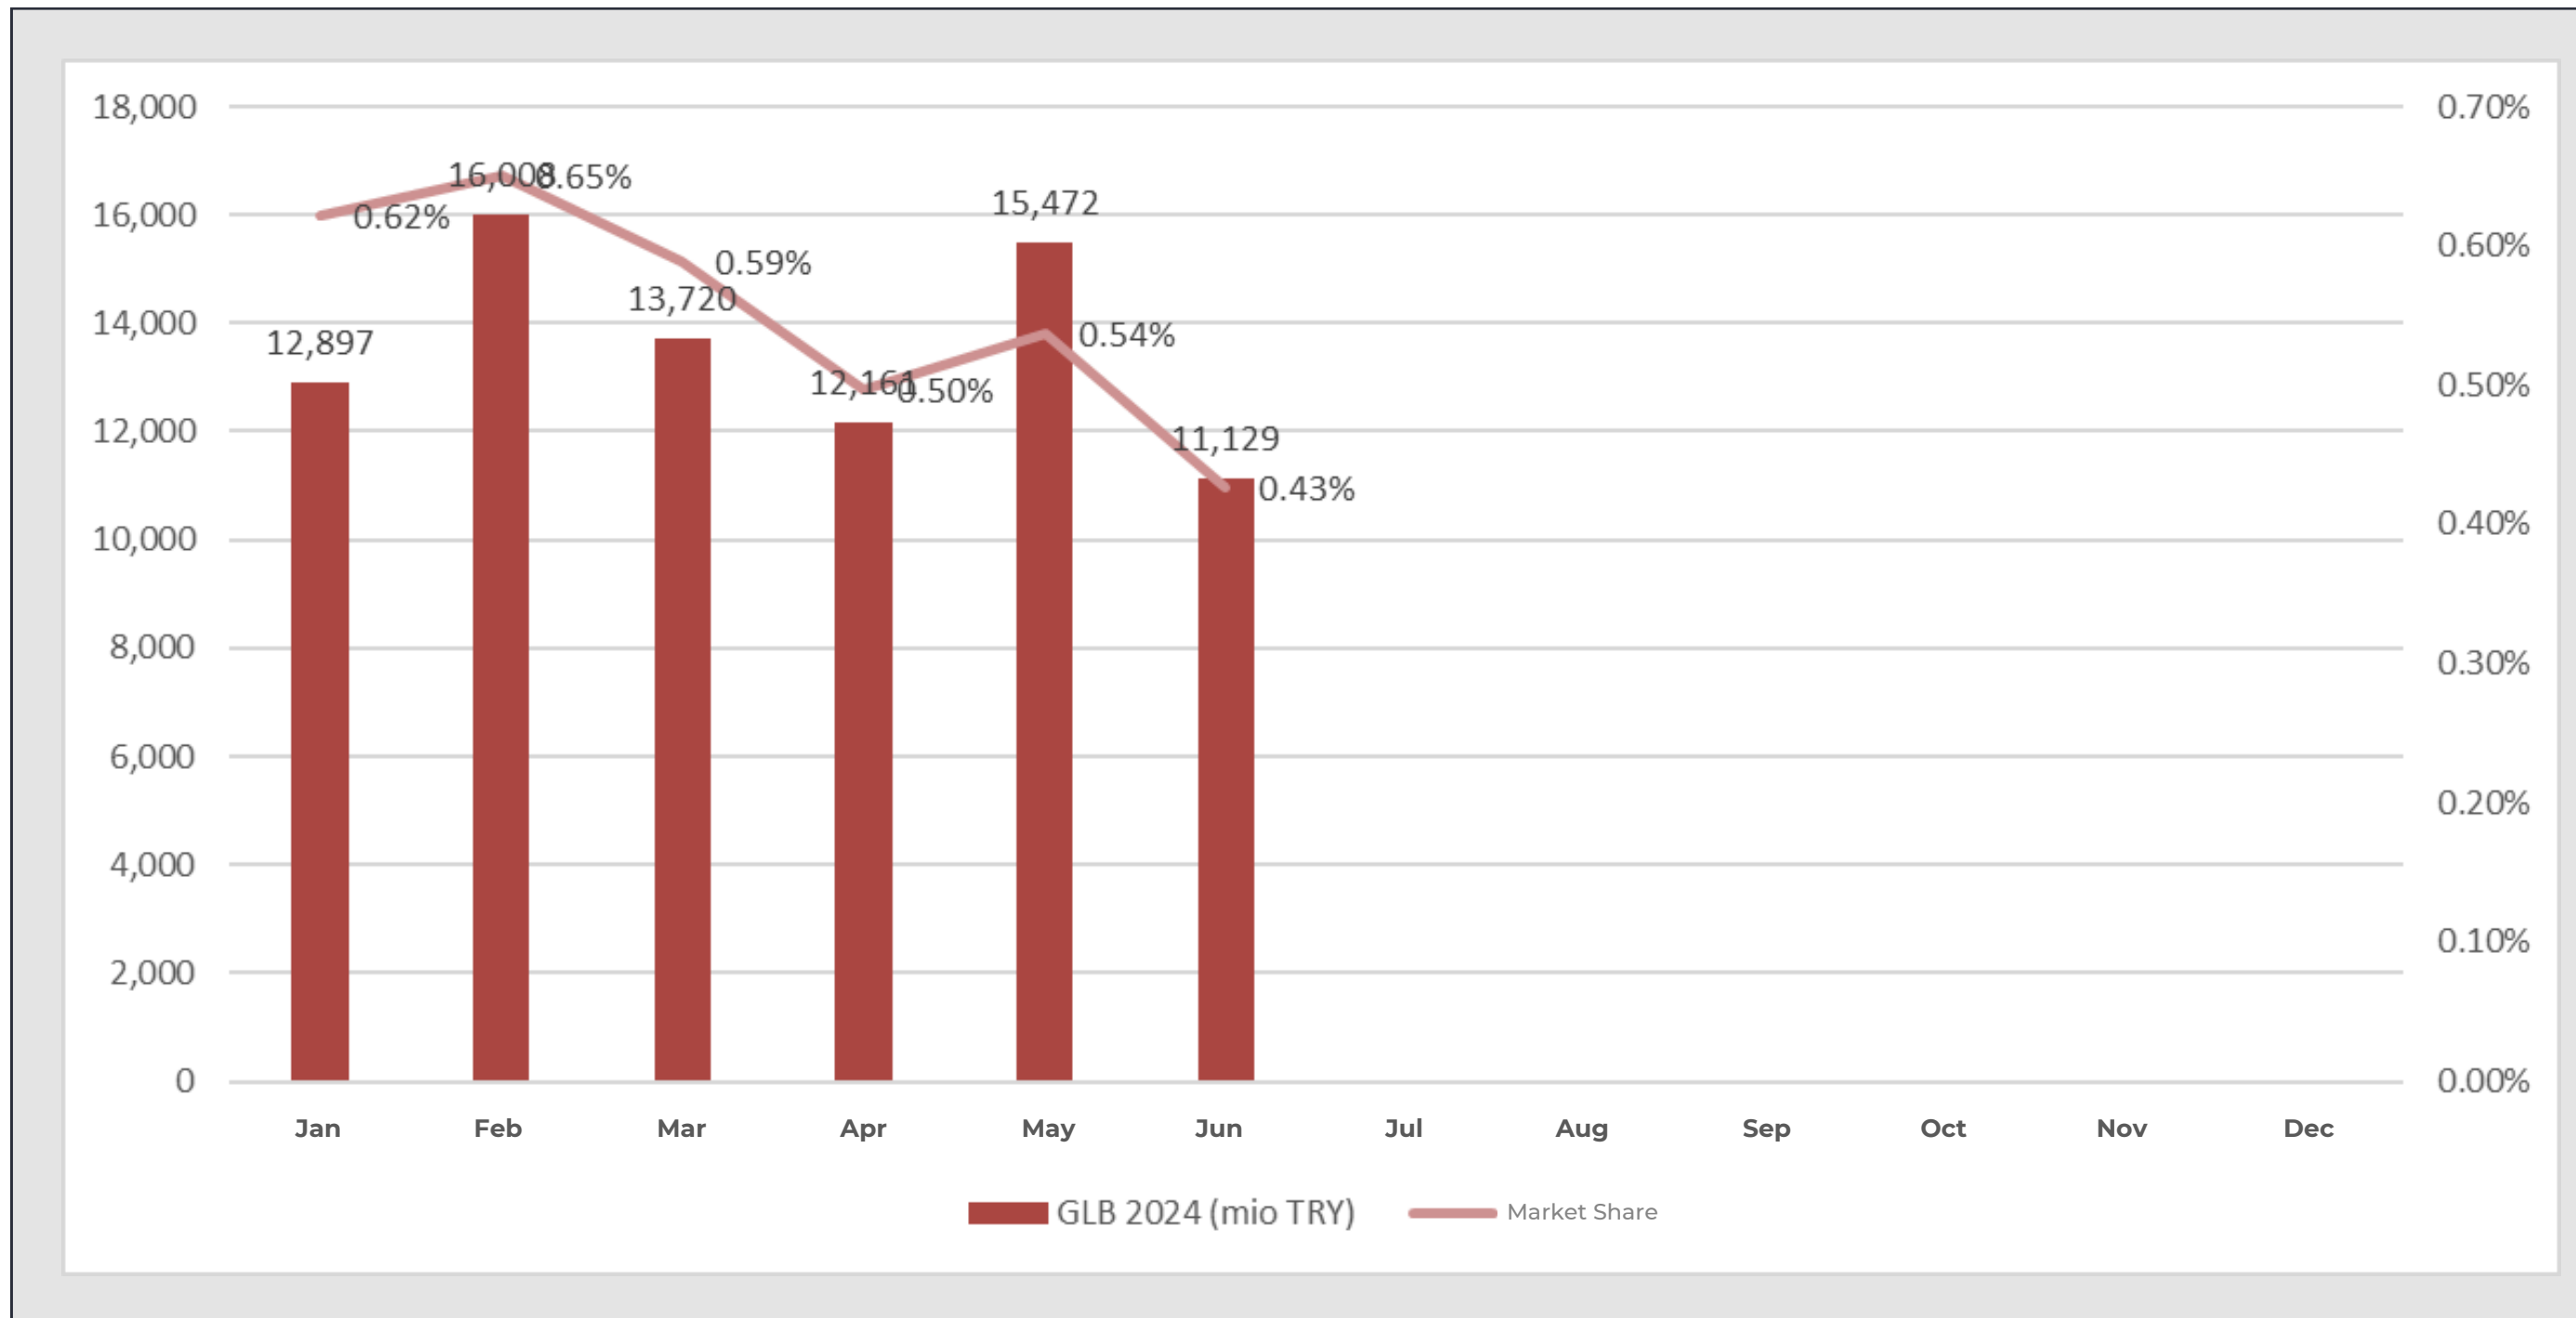

The Short-Term Model Portfolio (STMP), formed based on recommendations from the Global Securities Research Unit, has achieved significant returns in recent years both nominally and relative to the index.

Managed based on Fundamental/Technical analysis methods and consisting of a maximum of 8 and a minimum of 2 instruments, investors can invest in the STMP either by opening a portfolio management account or through our fund with the code GZM.

VIOP (Futures and Options Market)

- The unit offers investors a wide range of derivative contracts based on equities, equity indices, foreign exchange rates, interest rates, precious metals, commodities and energy in the Futures and Options Market (VIOP)
- The unit provides companies with the opportunity to hedge their currency risks in the Futures and Options Market (VIOP) by offering Currency Futures and Options contracts, enabling them to fix the exchange rate at a future date from today, thus providing hedging against exchange rate risk for firms engaged in imports or exports.
- The transactions being secured by Takasbank (the settlement entity for Borsa Istanbul) and being conducted within the organized market of Borsa Istanbul, VIOP not only provides risk management for currency exchange but also offers arbitrage opportunities.
